

ENDANGERED ANIMAL FLYER

Over the next few computer classes you will be researching an endangered species and creating a flyer to warn the public that this species is in danger of extinction! In order to create your flyer you must research the following information about your selected endangered species.

- ❖ physical appearance
- ❖ size (height and weight)
- ❖ life span
- ❖ diet
- ❖ behavior
- ❖ population size (how many are left in the world)
- ❖ habitat (which biome AND which part of the world)
- ❖ the reason why it's endangered
- ❖ laws that are already in place to help protect the species
- ❖ what the public should do to get the species off the endangered animals list

You will also be including at least one picture of your animal in its native habitat on your flyer.

The completed flyer will be due _____.

Your endangered animal is _____.
