PTG News

holiday **Craft Fair**

Mark your calendars for Sunday, November 14th from 11am to 4 pm for St. Teresa's Holiday Craft Fair. The sale will be in the Undercroft and there is no cost to enter or shop. If you are interested in becoming a vendor for this sale, email Wendy Gartrell or Shana Ebbers StTeresaVendors@gmail.com.

Quote of the Week...

"The lesson of 9/11 is that America is truly exceptional. We withstood the worst attack of our history, intended by our enemies to destroy us. Instead, it drew us closer and made us more united. Our love for freedom and one another has given us a strength that surprised even ourselves."
Rudy Giuliani

September 9th, 2021

Notification Regarding Vision and Hearing Screening

Who: New students, Kindergarten, 1st, 3rd, 5th, 7th, and any referrals from parents or teachers regarding a student (in any grade) who may be struggling with vision or hearing.

When: I will begin doing my assessments Friday, September 10th, and continue them each school day until I have seen every student from the grades above

So... in case you see a referral letter note coming home from me, you will know have taken a look at your student and determined the need for further evaluation.

Please note - This referral is not a diagnosis, nor an order for prescription or treatment. A hearing and vision screening only provide a snapshot of how your child performs on the day the test was administered and is not a substitute for a complete evaluation by the appropriate provider.

- If your child(ren) is sent home with a note from me regarding their sight or hearing, please take the paper to their current primary care provider or you may find an ophthalmologist (vision) or an audiologist (hearing)

Why is it important to have your child's hearing screened?

- Hearing is important for speech, language development, reading, and learning.
- A hearing screening can detect if your child needs further hearing testing.
- Even if your child has passed a hearing screening previously, their hearing can change.
- Hearing problems can be related to medical problems.
- Hearing loss is invisible and the child may appear to be not paying attention.

Why is it important to have your child's vision screened?

- Young children with vision problems do not know the way that they see the world is not the way they should be seeing it! Without early detection and treatment, children's vision problems can lead to permanent vision loss and learning difficulties.

In health and wellness,
Nurse Kate
